Financial Affairs Generally, there was more movement in Generally, there was more movement in Money yesterday than on either of the two preceding days, owing to the preparations for meeting the payments maturing to-day, which are quite large for the month of October. Still there was no closeness in the market; on the contrary, it was quite easy, and the Discount-houses were taking all the Paper they approved of their enganger at Paper they approved of their customers, at

With some Bankers the stock of Currency is augmenting, but generally it is slightly declining, and will be more so as the season

deciming, and will be more so as the season advances.

Eastern Exchange was still called steady yesterday, at 360% buying, though some houses were quite full, and not anxious in consequence to buy. Some of the Porkpackers were selling Checks on the East to obtain funds on which to operate here.

Gold was quiet at 146030c, and 36040c,, and New Orieans Exchange steady at parand 34 premium, buying and selling rates.

Time Bill and Uncurrent Money were unaltered; Missouri Paper ruling at 1c., and Iowa, Illinois and Wisconsin at 134c, discount.

Flour continued dull yesterday, and prices irregular, although the New York market was firm, with sales of 15,000 bris. Superfine could not be sold here at over \$4.60, though holders would not let it go lower than \$4.75 (@4.80. The sales reached only 1,100 brls. at \$4.75 to \$6.25. Whisky was uuchanged, with sales of 1,200 brls. There was no alteration in Previsions. Bacon Shoulders were disposed of at SM@SMc.; but no sales of Sides were made. In Greeceies there was no variation.

Whent was unchanged and the offerings were light, with a good request. Corn, Rye and prime Barley were firm, but Oats were dull. Two of our packers began operations—the first of the senson—yesterday—Morrison, Cordules & Co. and Henry Nye. We heard of no sales of Hogs except 600 head at \$6 50 per cental, to be delivered the 1st of December. Holders are firm and few are offering, but there is a gradually-growing disposition to buy at better prices on the part of pur-

The Imports and Exports of the various articles, during the twenty-four hours ending yesterday at noon, were:

the Bacon orders which come from the South are mostly for Sides, the stock of which is very light in this city, not being sufficient to meet the demand. The market was firm, with fair sales as 20% for Shoulders, 12/10, for rib Sides, 13/10, for clear rib and let. for clear Sides. There is but a small inquiry for Hams, with small fransactions at ite, for plan canvased and let/10, for angar-cured. The stock of Lard here is very light, and it is daily being diminished by the sales which are made to fill Southern orders, which are made to fill Southern orders, which are faily being received by our dealers. The market closed very firm, at 13/50 for prime.

for prime.

The market for Hogs is dall, with but little disposition on the part of packers to contract for lots, though we understand that a number of packers are still making purchases throughout the country at \$5 grees. For well farted Hogs, delivered early in the season, they would be willing to pay \$6.50 page.

For green Meats there is not much disposition to perate, joblers not being willing to purchase at his views of packers. We understand that a lot was effered to-day at \$0. for Sidos and rigo for hims, but it was refused. Jobbers are not willing to pay evere or for Hama, and they would not even se willing to purchase large lets at that quotation. The general disposition manifested is to hold until liter the Presidential election. Thursday's Tribune observes concerning

Wednesday's Stock-list:

There was an active Stock market this merging, with a firm feeling in the street before the Board, some 1,500 shares Central having been taken at \$4. The biddings, however, at the opening of the Bosed were languid and prices lower, and as the call proceeded, it was syident that the disunion incubus was still exerting an uniavorable influence upon prices, not that the demand from untellie largers, although large, was still not sufficient to absorb all the Stock theory on the market by the bears and drawn out of real holders by the using up of margins. When the Western shares were reached, the bears made a strong dismonstration, and nearly every description left off at a decline.

The same a number of the Tribuse that Wednesday's Stock-list:

The same number of the Tribuns thus speaks of Wednesday's New York Money market:

The demand, Money with a little more activity is abundant at their per cent, on choice or mixed evilaterials. Paper appears to be hardening a little, but there is no quotable chappe in rates. A considerable amount of Paper has been sent here for discount from Boston, which has temporarily supplied the demand. There is also a conditional community of Southern Bratts on the market, apparently hits, which are very difficult of negotiation, even at high rates. The disminon panic cry is eridently a two-edged seved, and can cut in the hand that wields it. Any Paper with a Southern name on it is looked upon with comparative disriver. We hear of further sales of \$29,000 Government new Fives at it per cent premium. Treasury Notes are beavy. The payments on the new boar at the Sub-Treasury here have reached \$1,20,000.

The Exchange market is inactive, with a good supply of Bills, and very limited demand. Leading Bankers ask lies or Sierling, but we bear of sales of their Bills from second bunds at 1675. France are 5.25,255.

The aggregates of last week's Boston Bank-

giatement are:

Capital, \$37,731,769. Lones and Discounts, \$68, \$22,050; Specie, \$5, \$29,569. Due from other Banks, \$2,20,560; Due to the Banks, \$2,20,560; Due to the Species, \$2,20,560; Due to the Lanks, \$2,070,509; Deposits, \$20,750,569; Circulation, \$7,51,500.

Nin Young Carries Mannay Thereday, November 1.—The Lave Stock Markets are over-supplied the present week. The total receipts at the various cite-yards, for the week ending restorday, number: \$2,200 tells of the Cattle, \$22 Milch-cows, \$42 Veal-calves, \$1,461 Sheep and Lambs, and \$2,28 live Hogs—total, \$6,220. The is equivalent to about \$4,075,800 pounds of dressed Mutron, and \$1,715,000 pounds of dressed the prompt of the pounds of dressed meat brought to this city during a single week! At restering's general weekly market, beef Cattle, owing to the over-supply, said at very low rates—the lowest this year. Good Bulbecks went at prices scarcely above elected per pound for the estimated dressed weight; a few of the best, but not many, brought as high as we. Milch-cows of power grades are abundant, and sell low. Supersor saimals sell at fair rates. Yeals are abundant and levers. Shong and Lambs are in note supply, but with a tree demand, last week's moderate prices are maintained. Live Hogs are in fair supply, and prices droughag.

DISPATCH ECONOMY 88" "A Stitch in Time Saves Nine," "En As addidents will happen, even in well-regulated families, it is very desirable to have some cheap and convenient way for repairing Furniture, Toys, SPALDING'S PREPARED GLUE

Mends all such emergencies, and up household can afford to be without it. It is always mady and up to the sticking point. There is no longer a necessity for limping chairs, splintered vencers, headless dolls and broken cradles. It is just the article for hone, shell and other ornamental work, so popular with indies of refinement and taste.

This admirable preparation is used cold, being

chemically held in solution, and possessing all the valuable qualities of the best cabinet-makers' gine. It may be used in the place of ordinary muchage, being vasily more adhesive.
